

Motion to remove the policy "Miljöpolicy"

Background

A new and more comprehensive environmental policy has been worked on during the semester and will be proposed during the June board meeting. Before voting on the new policy, the old one must be removed as it is unnecessary to have two policies regulating the same thing.

Purpose

The purpose of this motion is to remove the old environmental policy so that a new and updated one can be voted through.

Proposal

Can the board decide to remove the policy "miljöpolicy"?
