

Motion to remove the policy ”policy för systemet med ämbetspositioner”

Background

In 2010, a policy was passed meant to regulate the trustee system. Due to it being archived in the wrong place, it has not seen the light of day in many years and has therefore not been adhered to. As the trustees are an integral an important part of the association, a trustee policy is necessary, but also needs to be updated so that it is in line with how the association looks today. During the same meeting as this motion is presented, a motion for an updated trustee system policy will be proposed. As two policies regulating the same thing is unnecessary, one must be removed before the other is voted on. The new policy builds on the old policy.

Purpose

The purpose of this motion is to remove the old trustee policy so that a new and updated one can be voted through.

Proposal

Can the board decide to remove the policy “policy för systemet med ämbetspositioner”?
