

Motion to approve trustee policy

Background

The trustee (svenska: ämbetsperson) system has existed for ten years this year. It has evolved a lot since then and there are more trustees than ever with an increasing responsibility. There has existed a trustee-policy which has been hidden away in a separate folder in the no longer used system Dropbox. Therefore, it has not been followed, and after reading through it I realized that it needed to be updated to better describe the trustee system of today. Much of the old policy can be seen in the new policy, however, it has been revised to include a few more details with regards to the task of the trustees and the way in which they are elected.

As no common rules have been followed in the previous years with regards to the trustees (due to the policy being hidden away), this policy will provide a more clearly structured system in which the trustees can operate. It furthermore makes it possible to revise the policy again if it is decided by the end of the coming operational year that either too much, or too little, is detailed in the policy.

Purpose

The purpose of this motion is to both bring the trustee policy into light and change it to be better adapted to how the association looks today. By more clearly describing what the trustee positions are about and how they are elected, improvements to the trustee system will be easier to implement. In total I believe that this policy will allow UF Uppsala to be a more clearly structured and professional association.

Proposal

Can the board decide to approve the new and updated trustee policy?
