

Motion regarding accepting the Sexual harassment and Anti-discrimination policy

Background

UF Uppsala take very seriously issues regarding sexual harassment and discrimination. In our bylaws it is clear that UF Uppsala is strongly against both. We have long been working against both sexual harassment and discrimination but it hasn't been formalized in a policy.

Purpose

The purposes of the new policy are many. We want to create a long-term and sustainable ground for how we deal with sexual harassment and discrimination if it occurs and make sure there is a channel for members to use if they have been a victim of either. We also want to formulate the strategy in a policy for transparency and democratical reasons. Lastly we want it to be clear to our members how serious UF Uppsala take both issues and that it is a priority to work against it.

Proposal

May the board decide:

To accept the new Sexual harassment and Anti-discrimination policy
