

## Decision on Zoom License

### Rapporteur

Mathe Hanik, head of Lectures

### Proposals

1. To acquire a Zoom Web Meeting License Pro for 149.90\$ per year
2. To acquire a Zoom Webinar License for 400\$ per year

### Pros and Cons

Proposal 1: is the cheaper option that allows for a lot of the things we need for UF events, in particular the lectures. It allows for 100 participants, however, all of these participants have the same "standing" and are able to turn on their videos/ mics eg. potentially interrupt the event.

Proposal 2: is more expensive but allows for a few more features. Most importantly, it is more professional and distinguishes between participants and discussants, eg. Lecturers. Also allows for 100 participants. I would advise to go for this option.

### Decision

The board decides on option number 1.
