

## Material for Discussion of our Office Decisions

### Background

On November's board meeting, we decided on some policies on how to use our office spaces. The decisions in whole can be found in that meeting's protocol, but summarizingly we decided to:

- Limit access to Office and other spaces to board members
- Allow for both UF work and study for us
- Set a cap of 5 people in the Office room at the same time
- Follow this until further notice.

We are now two months in, we have and will have several new board members, and usage of our office spaces have varied over time.

### Discussion topics

1. Do these restrictions invite you to careful use of our offices?  
- if no: why is that?
2. Have there come up any reasons to change these decisions?

### Rapporteur

Isak Lefvert, President
