

Motion on the appointment of trustees for Uttryck Magazine

Proposal

We propose to appoint Rieke Smit as trustee in the role of editor, as well as Summer Isaacson and Michaela Borg Bruchfeld as trustees in the role of editors for Uttryck TV.

Motivation

Rieke Smit, nomination (editor):

Given Rieke's extensive experience in writing, journalism and editing, we think she will make a perfect addition to our team. Rieke has written for a number of different publications, including student publications and a German weekly newspaper. She has also worked as an intern for two TV stations in Germany and co-edited two small magazines in the past. In addition to her great resume, we think that Rieke's positive energy and organised workstyle will contribute to a great working environment for both editors and writers alike. We are convinced that she can help us a great deal in developing Uttryck into the best magazine that it can be.

Summer Isaacson, nomination (editor Uttryck TV):

We would love to welcome Summer to Uttryck for the upcoming semester. We think that her experiences from studying political science, as well as film and global communication, makes her a great fit as editor for Uttryck TV. We were impressed with her understanding of the power of impactful communication and her experience in editing research articles and news stories from her previous internship. Additionally, her positive attitude and initiative is exactly what we need in the development and launch of our new digital media initiative.

Michaela Borg Bruchfeld, nomination (editor Uttryck TV):

Michaela has shown, both in her application and in her interview, that she would do a fantastic job as a trustee for Uttryck TV. She is currently studying peace and conflict at Uppsala University and has valuable experiences from studies within both political science and economics. She has experience with working and studying in both Paris and Tel Aviv and we believe that she will bring an exciting international perspective to our team. She also has extensive experience with voluntary work, both within administration, communication, and hosting events. We are convinced that she will contribute greatly to Uttryck Magazine.
